

AA Bookies Resources

“AA Bookies” - Google Group

A Google Group has been created to allow bookies from New Hampshire and Massachusetts to meet and share bookings. For those bookies who have access to the internet this is a tremendous tool that can significantly enhance your ability to book with many groups that you may have not have been able to contact in the past.

The Google Group provides a single email address that will automatically send mail to all bookies that are members of the group (one email reaches many people) and it also provides discussion forum capabilities. A contact list of bookies is also shared through this group.

If you are a bookie and wish to become a member of the group, send an email to noreaster.aabookie.manager@gmail.com requesting membership in the AA Bookies Google Group.
